

Guarantee Terms in Various Environments

The guarantee entails CW Lundberg replacing faulty products with new, flawless products without delay. If a product has damaged the outer roof or any other part of the roof, CW Lundberg AB will pay compensation equivalent to the cost of buying such material new. The new product is made available to the roof owner at CW Lundberg AB's factory in Mora. Instead of compensating the roof owner with a new product, CW Lundberg AB is entitled to effect repairs or in some other way to rectify the fault in the original product.

The guarantee covers all products made of Magnelis and stainless steel by CW Lundberg AB after 1 May 2016.

The guarantee is subject to the following conditions:

- The guarantee period is determined based on the environment in which the product is installed; see sample environment in the table below.
- For an installed product, the guarantee only applies on the condition that the installation is done in accordance with CW Lundberg AB's instructions that applied at the time of the purchase.
- The product shall have been maintained in accordance with CW Lundberg AB's instructions that applied at the time of the purchase.
- The product may not have been subjected to abnormal wear and tear or loaded over normal limits and directives stated for roof safety products, e.g., snow fences.
- Claims shall be made to CW Lundberg AB within one month after the fault is discovered or has been made known to the roof owner.
- The right to compensation applies to the owner of the roof on which the product has been installed or will be installed.

When does the guarantee not apply?

- The guarantee does not apply to damage to products that have occurred have the risks have been transferred from CW Lundberg AB to its customer. The guarantee thus does not apply, e.g., to transport damage after such transfer of risk, or to damage due to faulty or careless storage or other handling by a wholesaler, retailer or end customer. In case of such damage, the retailer is primarily responsible according to statutory regulations.
- The guarantee does not apply if the installation is supplemented with components of a make other than that of CW Lundberg AB.
- The guarantee does not apply to anything other than that which is stated in this document.

		Specific guarantee time	Guarantee time (years)
		Enamelled products installed on copper roofs.	20
Corrosivity class	Environmental corrosivity	Environmental example	Guarantee time (years)
C1	Very low	Heated areas with dry air and negligible amounts of air contamination, e.g., offices, stores, schools and hotels.	100
C2	Low	Atmospheres with low concentrations of air contamination. Non-heated areas with fluctuating temperatures and humidity. Low frequency of condensation and low concentrations of air contamination, e.g., sport halls, warehouses.	80
C3	Moderate	Atmospheres with a certain amount of salt or moderate air contamination. Urban areas and lightly industrialised areas. Areas with a certain amount of influence from the coast. Areas of moderate humidity and a certain amount of air contamination from production processes, e.g., breweries, dairies, laundries.	60
C4	High	Atmospheres with a moderate amount of salt or considerable air contamination. Industrial and coastal areas. Areas with high levels of humidity and large quantities of air contamination from production processes, e.g., chemical industries, indoor swimming pools, shipyards.	40
C5-I	Very high (Industrial)	Industrial areas with a high degree of air humidity and an aggressive atmosphere. Areas with almost permanent condensation and large amounts of air contamination.	20
C5-M	Very high (Marine)	Coastal and offshore areas with large quantities of salt. Areas with almost permanent condensation and large amounts of air contamination.	20

Corrosivity classes according to EN ISO 12944-2:1998
